

Styles In Shoes

IF YOU wish to be in the ranks of the fashionable, you must wear shoes which match your gown. So say the authorities in whose hands lies the awful power of dictating what women shall wear. They do not deign to give good reasons, for so autocratic is their power that they can command obedience in a manner more absolute than can the czar of Russia.

The prevailing color is to be green, and to meet the mode shoe manufacturers have put forth a green suede shoe to match the gowns. There is a great variety in this article, and one of the most fashionable styles consists of what is known as the sheath boot. This is nothing more than the old-fashioned ten-strapped sandal. Instead, however, of having straps the shoe is made like an ordinary Napoleon boot, but the tops are cut in a sort of diamond pattern and therefore show a good deal of open work. The buttons are run right down the front of the shoe and afford the button manufacturer an opportunity to do some fancy ornamenting on the buttons. Incidentally all the diamonds cut in the top of the shoe are finished in embroidery.

The most decided change in the new shoe will be the edge trimming. Instead of having the edges trimmed close there is to be considerable leather on the outside of the shoe. With the moderate shaped toe now in use by the manufacturers of lasts it is claimed that a wide seamed sole is necessary to bring out the good points of the shoe. It is further said that full soles across the ball of the shoe prevent it from losing its shape.

One of the most artistic designs which has been put out consists of a

cross strapped slipper buckling close to the instep. Three frogs decorate the shoe under the straps. The toe is pointed sharply and ornamented with a buckle. The heel is higher than has been fashionable with the summer shoes, allowing a decided arch to the instep.

For those who desire a high shoe the Vassar boot should meet all requirements. These goods are being put out in bronze or soft black kid and in colors to match the fashionable shades in gowns, which are dull blue, wistaria, bronze and the new shade which is popularly known as sand color, having derived the name from its resemblance to the sand on a beach when the sun shines on it. This shade is one of the most beautiful in vogue for some time and is sure to be popular in shoes and gowns.

This shoe, which is distinctly individualistic, has 11 straps, the series culminating with a bow at the top of the shoe. The high Louis XV. heel is in general the style, but it is being manufactured also with the Cuban heel, which has made such headway lately.

The most noticeable tendency in modern footgear is towards an increase in ornamentation on the toe-cap. The spider slipper represents an extreme in this respect. These goods made of suede or kid, are heavily beaded and fasten with three straps of extremely ornamental pattern. The shoe is made with the Louis XV. heel and a long and slender last. It is declared by the authorities that shoes of this style will be highly popular during the winter in spite of the fact that the protection that they afford the foot is extremely small.

DRESSING JACKET OF MUSLIN.

Ribbons and Embroidery Help to Elaborate the Garment.

For a useful dressing jacket nothing is better than white spotted muslin, as it washes so beautifully. This has a V-shaped yoke, edged with buttonhole embroidery to thread ribbon through; the material is gathered at

the top and set to yoke under the embroidery; puffed sleeve gathered into a band of embroidery, through which ribbon is threaded, with a frill of muslin, trimmed with insertion lace.

Materials required: Four and one-half yards muslin 30 inches wide, two yards buttonhole embroidery, one yard narrow lace, 1½ yards wide lace, one yard insertion, three yards ribbon.

Make Stockings Last.

When buying boys' stockings, purchase as long as can be had. Before wearing, sew a neat tuck around the ankle. When the stocking is worn at the knee let out the tuck and the worn part will be raised so as to be covered by the trousers, and the stocking will be as good as new.

Figures and Stripes.

Figures and stripes are predominant for short skirt walking costumes. Stitched bands of self-material are used for trimming.

BEAUTY IN THE EXPRESSION.

Kindliness and Good Nature Redeem the Plainest Features.

One of the first things that the girl who is seeking for beauty must think about is her expression. You will notice the plain girl whose face is "so expressive," when you would never even see the girl whose features were beautiful, but whose face lacked expression. Every one enjoys looking upon a young girl whose bright, laughing eyes light up her already cheerful, smiling face. When you meet such a girl as this your mouth forms a smile in spite of you. But when you meet the woman who is always whining or the one whose imaginary ills bore you to death, then how do you feel? You become irritable and cross, and you wish you never had met her.

Imagine then your effect upon other people, and if you feel that it is not as pleasant as it might be make it so at once. Good nature is an ideal beauty. It brightens your eyes, discourages approaching wrinkles, and brings tints of the rose into your cheeks, while a cross disposition makes your eyes fretful and surrounded by crow's feet, and your mouth droops at the corners and makes you look years older.

Velvet Empire Belts.

Dead white cloth, chiffon cloth and silk will be used this winter for elaborate indoor garments. To give these color a wide, soft belt of velvet is to be added. The effect is quite vivid. The smart women in Paris have been wearing these belts constantly at the races during the last few weeks, and there seems little doubt that the fashion will be taken up here.

It is about four inches wide, is not folded, but left quite plain. It may be of ribbon or of shaped velvet in the piece. It is put around the figure just below the bust and simply hooked at the back or front under a flap. This is all there is to it, but it is quite effective and new.

Green Hats for Girls.

The olive green hats that have topped the heads of young men the first few days of fall have been taken up with enthusiasm by young girls.

Some of these have the pheasant's wing in the front just as it is worn in the Alps. The hat is used by girls for school wear in the same rakish way of the summer Panama.

It looks very well with the first fall coat suit, and is far more becoming than the stiff or the floppy Corday.

WIRELESS TO STEER TORPEDO.

Young Bostonian Harnesses Ether Waves for Duty Under Water.

Boston.—An ingenious young man of Charlestown, the district of Boston that produced the inventor of the electric telegraph, is confident that he has discovered just how to harness Hertzian waves, so as to employ them in making submarine torpedoes dirigible and dischargeable at the behest of an operator aboard ship or on shore. Patent rights have been applied for by this young experimenter, whose name is Charles A. Logue, Jr.

Mr. Logue, who is a student at Boston college, and 21 years old, has for years been interested in scientific

CHARLES A. LOGUE, JR.

Inquiry, and since the first practical achievements in wireless telegraphy has devoted a great deal of attention to the study of ether waves and their possibilities. After months of diligent effort he succeeded, some months ago, in influencing the course of a mock torpedo in a tank of water. After many trials he succeeded at last in steering the tiny craft in the tank in any desired direction, and when the attention of William J. Doolan, a torpedo expert at the Charlestown navy yard, was directed to it, Mr. Doolan made an examination and decided to take a working model of the apparatus to Washington.

DUKE ENDING TOUR OF GLOBE.

Cousin of Spanish King in New York After Interesting Journey.

New York.—Under the incognito of "M. de Villiers," Ferdinand duc de Montpensier, brother of the queen of Portugal, cousin of the king of Spain, brother of the Duc d'Orleans, son of the Comte de Paris and grandson of Louis Philippe, king of the French, is at the Hotel Knickerbocker, having

DUK DE MONTPENSIER

completed all but the final stage of an adventurous and interesting journey around the world.

Accompanied by his chamberlain, the Comte de Bernis, and one servant, the duke left Paris last winter, went rhinoceros hunting in an automobile in Africa with the Bashaw of Algeria, shot elephants in Indo-China and toured 450 miles through Chinese jungles in the course of an exciting dash to Peking by motor.

Next he expects to start for Canada, where, as the guest of members of the Laurentian club, he will participate in a moose hunt. After a few days more in New York he will go to Mexico and then depart for Spain.

What Makes a Navy.

While the maritime nations of the earth are striving for the mastery of the seas through the building of gigantic vessels, we may content ourselves with the thought that here we have the men and the spirit that makes for victories. Sincerely it is to be hoped that it will be long ere we shall be called upon to test our prowess against these latest developments in naval architecture, but if the time does come we can comfort ourselves with the reflection that a gathering of ships does not make a navy—now as always it is the man behind the gun.—Washington Herald.

Lighthouses on British Coasts.

There is a lighthouse to every 14 miles of coast in England, to every 34 miles in Ireland and to every 29 miles in Scotland.

One of the Essentials

of the happy homes of to-day is a vast fund of information as to the best methods of promoting health and happiness and right living and knowledge of the world's best products.

Products of actual excellence and reasonable claims truthfully presented and which have attained to world-wide acceptance through the approval of the Well-Informed of the World; not of individuals only, but of the many who have the happy faculty of selecting and obtaining the best the world affords.

One of the products of that class, of known component parts, an Ethical remedy, approved by physicians and commended by the Well-Informed of the World as a valuable and wholesome family laxative is the well-known Syrup of Figs and Elixir of Senna. To get its beneficial effects always buy the genuine, manufactured by the California Fig Syrup Co., only, and for sale by all leading druggists.

The Still Alarm.

A tourist in an out-of-the-way region of England put up one night at an amiable old lady's cottage, the village inn being full.

Now, the tourist was very deaf, which fact he took pains to impress upon the old lady, together with instructions to wake him at a particular hour in the morning.

On waking a great deal later than the time appointed, he found that the amiable old lady, with a commendable regard for propriety, had slipped under his door a slip of paper on which was written:

"Sir, it is half-past eight!"—Harp-er's Weekly.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. CHENEY & CO., Toledo, Ohio. Sold by Druggists, The. Take Hall's Family Pills for constipation.

Mercenary Marriages.

"Dinna marry for the siller, Joek," said old Sandy, sagely, to his son, who seemed to show symptoms of the awakening of a young man's fancy; "gin ye dae, ye'll aye regret it. For a'm tellin' ye, when I marrit ye'r mither, I hadna but ae shillin', forby she had aughten pence. And for all the 15 year o' oor marrit life, I ne'er heard the last o' the odd saxepee."—F. C. Luck, in West Coast Magazine.

Starch, like everything else, is being constantly improved, the patent Starches put on the market 25 years ago are very different and inferior to those of the present day. In the latest discovery—Defiance Starch—all injurious chemicals are omitted, while the addition of another ingredient, invented by us, gives to the Starch a strength and smoothness never approached by other brands.

Nature Conquers Man.

Man can get along without his cities and his clothes and his complicated tools and treasures; but all his vaunted wisdom and skill are set utterly at naught by the simple failure of the clouds to drop rain. The only actual necessities of life are those bestowals of nature which were necessities to aboriginal man.—Philadelphia Bulletin.

Important to Mothers.

Examine carefully every bottle of CASTORIA, a safe and sure remedy for infants and children, and see that it Bears the Signature of *Dr. H. H. H. H.* In Use For Over 30 Years. The Kind You Have Always Bought.

What He'd Seen.

"No," said the eminent scientist, "I have never seen a Plymouth rock hen lay a corner-stone, but I have frequently seen a pine-apple layer cake."

Lewis' Single Binder straight 5c cigar is good quality all the time. Your dealer or Lewis' Factory, Peoria, Ill.

Duty is the sublimest word in language, and sums the whole of life.—Lee.

PISO'S

PROTECT YOUR LUNGS

If every cough you catch settles on your lungs, you have weak lungs. Don't let the cough hang on. A "hang-on" cough is dangerous to strong lungs—doubtless so to weak ones. Get rid of it in the beginning with PISO'S Cure. It acts promptly and effectively; allays the irritation, reduces the congestion, frees the throat of phlegm, clears the clogged air passages and stops the cough. For nearly half a century the unsurpassed remedy for the worst forms of coughs, colds and chest complaints has been

PISO'S CURE

A NEW CURE.

Jim—What's Jack trying for his rheumatism, Bill?
Bill—Swearing.

The Difference.

The woman who remains single all her life because the only man she ever loved died in the flower of his youth is regarded as a heroine. The man who remains a bachelor because the darling of his heart went to an early grave is generally supposed to be a fool.

Very Unkind.

Stage Door Johnny—Now what do you think is the first necessary for a nice little supper?

Experienced Show Girl—A nice big lobster.

Asthmatics, Read This.

If you are afflicted with Asthma write me at once and learn of something for which you will be grateful the rest of your life. J. G. McBride, Stella, Neb.

Wealth Not the Great Thing.

It is not wealth that gives the true zest to life, but reflection, appreciation, taste, culture.—Smiles.

Pettit's Eye Salve Restores.

No matter how badly the eyes may be diseased or injured. All druggists or Howard Bros., Buffalo, N. Y.

Two-thirds of a woman's worry is due to her continuous efforts to have her way.
